

Repeat Yourself

Select one of the assignment's charted small motifs, cast on the required number of stitches and join for working in the round. Knit one full repeat of your motif each day for a week in seven different colourways. Take the opportunity to play with contrasts, swap out light and dark, and put colours you dislike, or like less well, against each other. You can copy your chosen chart a few times into your journal, and test out your palettes by shading with coloured pencils, if you wish.
